

FIDM Transfer Guide

- Review the course equivalency guide. Please note that the course requirements (including general studies) vary by major. There are very few or no elective options.
- Cross check the list with the majors of study listed in the FIDM catalog. There you will find that you can view all courses required for each major.

To access the majors of study go to

<http://www.fidm.com/>

and select FIDM majors (top of the page) then choose degree offered, select the intended major, then choose the Associate of Arts selection. It will provide a course listing of all the courses in that major.

- The FIDM catalog and equivalency guide will direct you to courses that can be completed at Grossmont College. They will be based on which major you are interested in attending at FIDM.
- Meet with a Counselor for further assistance and FIDM encourages you to contact them directly.
